OBJECTIVE

Full-stack Software Developer with hands-on experience building ERP (Enterprise Resource Planning), POS (Point of Sale), and SaaS (Software as a Service) applications using modern web and database technologies.

EDUCATION

American International University-Bangladesh 2021 - 2025
B.Sc. in Computer Science & Engineering CGPA: 3.70

Chattogram Cantonment Public College 2018 - 2020
Higher Secondary School Certificate GPA: 5.00

SKILLS

Front-End: HTML5, CSS3, JavaScript, TypeScript, jQuery, React, Next.js, Tailwind CSS
Back-End: Node.js, Express.js, NestJS, Java, Spring Boot, .NET, PHP, C#
Database & Reporting: PostgreSQL, MySQL, MongoDB, MSSQL Server, Oracle, PL/SQL, Crystal Reports
DevOps & Tools: Docker, CI/CD, Git/GitHub, RESTful API Integration
Other: Object-Oriented Programming (OOP), Responsive Web Design

EXPERIENCE

Generation-Next IT Solutions Ltd. Dhaka, Bangladesh
Junior Programmer Feb 2025 - Present

- Develop and maintain modules for Gpac ERP, a multi-tenant ERP/POS SaaS platform used by businesses for day-to-day operations.
- Collaborate with senior developers to design, build, test, and deploy new features and reports across multiple client environments.
- Apply object-oriented programming, relational database design, and reporting tools to deliver scalable, reliable solutions.

PROJECTS

Gpac ERP - SaaS Platform (saas.gpacerp.com)

- Worked on 5 core ERP/POS modules - Accounting, Sales, Purchase, Stock, Budget Management and POS Reporting - with real-time dashboards for business clients.
- Developed the all-transaction Report Dashboard and calendar to track daily business activity.
- Designed Crystal Reports and optimized SQL stored procedures (SP) for accounting, sales, purchase, and stock reports.
- Created streamlined entry pages for sales and purchase transactions.
- Built a Sale, Purchase, and Warranty Claim page with an IMEI-based tracking system for a Mobile Shop ERP module.
- Worked on Gpac VAT, a VAT calculation and reporting module integrated with the ERP system for automated tax compliance

JobFinder Web Application. Designed and developed a scalable full-stack job portal supporting job search, application tracking, profile management, and resume uploads. Technologies: NestJS, Node.js, Next.js, TypeScript, Tailwind CSS, PostgreSQL.

Other Academic Projects. Travel Planner API - backend system for managing travel itineraries (.NET, MSSQL Server). Event Management Desktop App – attendee registration and scheduling (C#, MSSQL Server). Discount Prediction Model - machine learning model to predict shopping discount rates (Python, Pandas, Scikit-learn). More projects on GitHub.

CERTIFICATIONS

- Cisco Networking Academy - IT Essentials Certificate, Cisco (2022)

EXTRACURRICULAR ACTIVITIES

- **Member - Engineering Students Association of Bangladesh (ESAB)**
  Engaged in technical events, seminars, and student networking initiatives.
